

## Generated Test Cases

ID: TC-001

Title: Doctor successfully raises a new activity request with valid data

Steps: Log in as a user with Doctor role, Navigate to the 'Raise Activity Request' page, Enter a valid activity title in the Title field, Select a valid activity type from the dropdown, Enter a description of at least 20 characters, Set a future date in the Requested Date field, Click the 'Submit' button

Test Data: Title: "Physical Therapy Session", Type: "Therapy", Description: "Patient requires 30 minute physical therapy", Date: "2024-05-15"

Expected Result: The system displays a success message "Request submitted successfully" and the new request appears in the doctor's pending requests list.

Category: Positive

ID: TC-002

Title: Attempt to raise a request with missing required fields

Steps: Log in as a Doctor, Navigate to the 'Raise Activity Request' page, Leave the Title field empty, Select an activity type, Enter a description, Click the 'Submit' button

Test Data: N/A

Expected Result: The system prevents submission and shows a validation error next to the Title field stating "Title is required".

Category: Negative

ID: TC-003

Title: Attempt to raise a request with an invalid past date

Steps: Log in as a Doctor, Navigate to the 'Raise Activity Request' page, Enter a valid Title and Type, Enter a description, Set the Requested Date to a past date (e.g., yesterday), Click the 'Submit' button

Test Data: N/A

Expected Result: The system displays a validation error "Requested date must be in the future" and does not submit the request.

Category: Negative

ID: TC-004

Title: Doctor attempts to raise a duplicate request for the same activity on the same date

Steps: Log in as a Doctor, Navigate to the 'Raise Activity Request' page, Enter a Title that matches an existing pending request, Select the same activity type, Enter a description, Set the Requested Date to the same date as the existing request, Click the 'Submit' button

Test Data: N/A

Expected Result: The system shows an error message "A request for this activity on the selected date already exists" and prevents duplicate submission.

Category: Edge

ID: TC-005

Title: User without Doctor role attempts to access Raise Activity Request page

Steps: Log in as a user with role 'Nurse', Attempt to navigate directly to the URL of the 'Raise Activity Request' page

Test Data: N/A

Expected Result: The system redirects to an 'Access Denied' page or shows a message "You do not have permission to perform this action".

Category: Authorization

ID: TC-006

Title: Session timeout during request creation

Steps: Log in as a Doctor, Navigate to the 'Raise Activity Request' page, Enter valid data in all fields, Wait for the session to expire (e.g., 15 minutes of inactivity), Click the 'Submit' button

Test Data: N/A

Expected Result: The system redirects to the login page with a message "Your session has expired, please log in again" and does not submit the request.

Category: Authorization

ID: TC-007

Title: Maximum length validation for Title field

Steps: Log in as a Doctor, Navigate to the 'Raise Activity Request' page, Enter a Title consisting of 256 characters (exceeding the 200 character limit), Fill all other required fields with valid data, Click the 'Submit' button

Test Data: N/A

Expected Result: The system displays a validation error "Title cannot exceed 200 characters" and prevents submission.

Category: Edge

ID: TC-008

Title: Special characters handling in Description field

Steps: Log in as a Doctor, Navigate to the 'Raise Activity Request' page, Enter a valid Title and Type, Enter a description containing special characters like "!@#\$%^&\*()\_+|~=`{ } [ ] : ; ' < > , . ? / " , Set a valid future date, Click the 'Submit' button

Test Data: N/A

Expected Result: The request is submitted successfully and the description is stored and displayed exactly as entered without truncation or error.

Category: Positive

ID: TC-009

Title: Performance: Request submission response time

Steps: Log in as a Doctor, Navigate to the 'Raise Activity Request' page, Enter valid data in all fields, Click the 'Submit' button

Test Data: N/A

Expected Result: The system returns a success response and displays the confirmation message within 2 seconds.

Category: Non-Functional

ID: TC-010

Title: Accessibility: Keyboard navigation through the request form

Steps: Log in as a Doctor, Navigate to the 'Raise Activity Request' page using only the keyboard (Tab, Shift+Tab, Enter), Move focus to each input field and verify focus order, Submit the form using the Enter key

Test Data: N/A

Expected Result: All form fields are reachable via keyboard in a logical order, and the form can be submitted using the Enter key without mouse interaction.

Category: Non-Functional

ID: TC-011

Title: Upload attachment exceeding size limit

Steps: Log in as a Doctor, Navigate to the 'Raise Activity Request' page, Fill all required fields with valid data, Attempt to attach a file larger than the allowed 5 MB limit, Click the 'Submit' button

Test Data: N/A

Expected Result: The system displays an error message "Attachment exceeds the maximum allowed size of 5 MB" and prevents submission.

Category: Negative

ID: TC-012

Title: Concurrent submissions handling

Steps: Log in as Doctor A on Browser 1, Log in as Doctor A on Browser 2 (same account), In Browser 1, fill a valid request and submit, Immediately in Browser 2, fill a different valid request and submit

Test Data: N/A

Expected Result: Both requests are processed independently; each receives its own success confirmation without data loss or duplication errors.
